Foster City	1	Menlo Park	1
Transient	4	Out of County	5
Total Supervisees	19		

Terminations, Revocations and Flashes

There were twelve (12) terminations during the reporting period. Fifty-eight percent (58%) were successful.

Total # of Supervisees Successfully Terminated		Total # of Supervisees Unsuccessfully Terminated	
PRCS – 4	MS – 3	PRCS – 2	MS – 3
<ul style="list-style-type: none"> • Early Terminations: 1 • Normal Terminations: 3 			

In the reporting period, we filed a total of thirty-eight (38) revocations, with PRCS having twenty-nine (29) and MS having nine (9) revocations. The breakdown by violation category is below:

Violation Type	PRCS	MS	% of Q2 Revocations
Property	1	3	11%
Drug/Alcohol	5	0	13%
Crimes Against Persons	5	1	16%
Technical	10	5	39%
Other Crimes	8	0	21%
Total	29	9	100%

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Thirty-nine percent (39%) of revocations were for technical violations. Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. It is important to note that the Probation Department usually files formal revocations after lower sanctions have been attempted, including flash incarcerations for PRCS cases. However, at times, officers may decide that a formal revocation is more appropriate than utilizing lower sanctions, depending on the circumstances of the violation. Sixty-one percent (61%) of revocations filed were for new law violations involving crimes against persons, property, drug/alcohol related crimes as well as other crimes.

There were five (5) **flash incarcerations** during this reporting period.

Two (2) cases were **transferred** to another county for supervision.

Recidivism Definition

San Mateo County: Arrest and/or Charges Filed within 3 years of Last Incarceration in San Mateo County, including warrant arrests, PTA/Court Sentence but **excludes** PRCS flash incarcerations/Revocation, 647/849B1 (no charges filed) or dropped charges.

Attorney General: An arrest resulting in a charge within three years of an individual's release from incarceration or placement on supervision for a previous criminal conviction

BSCC: A conviction of a new felony or misdemeanor committed within three years of release from custody or committed within three years of placement on supervision for a previous criminal conviction.

San Mateo County Quarterly Realignment Bulletin

Quarter 4: October 2021 — December 2021

Executive Summary:

Offenses committed by the supervised and in-custody realignment populations in San Mateo County during October through December (Q4) continue to show that this population commits drug and property crime offenses. There is no significant involvement in serious or violent crime.

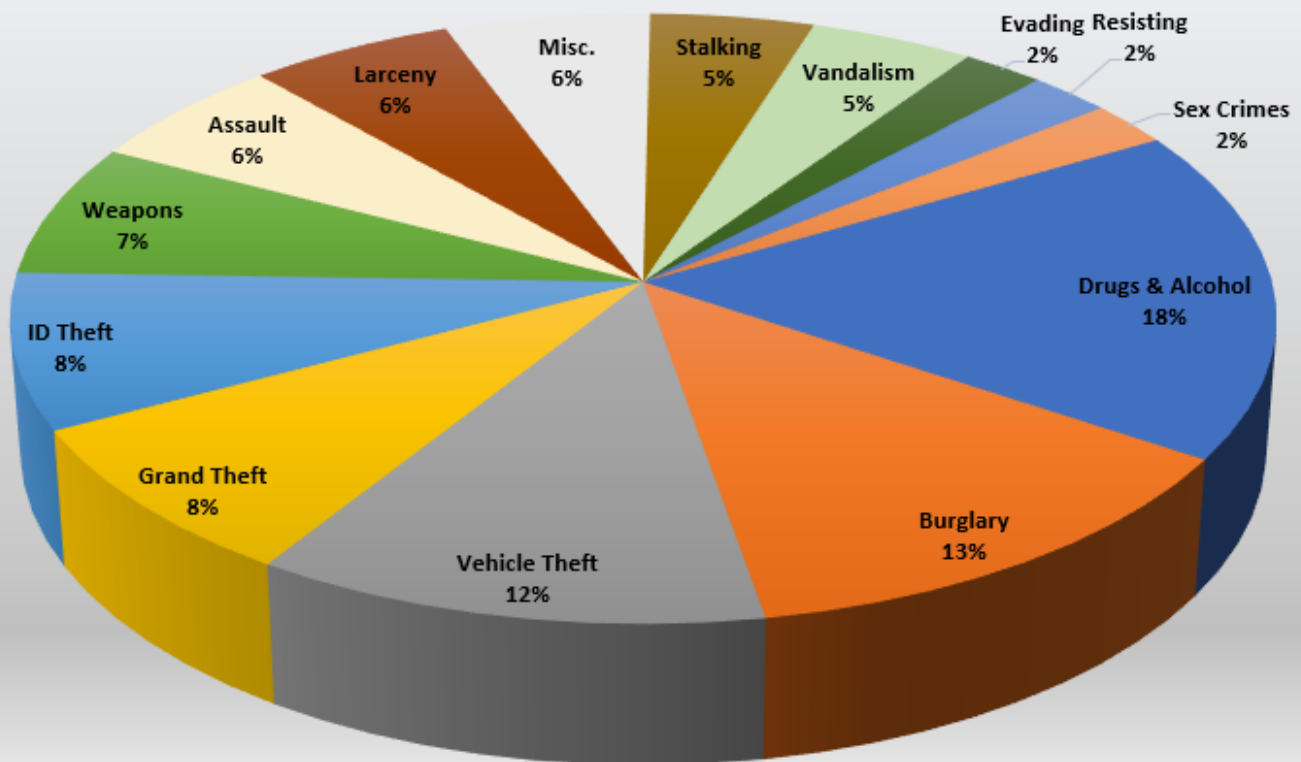

Overview:

During Q4, **drug/alcohol offenses** (18%), **burglary** (13%), and **vehicle theft** (12%) the top three committing offenses for the realignment population (this includes the new supervised cases and in-custody realignment offenders). This was consistent with the Q3 top committing offenses. Please note, “miscellaneous” refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: forgery, conspiracy, and contempt. Overall, there was a slight decrease in the total realignment population during Q4.

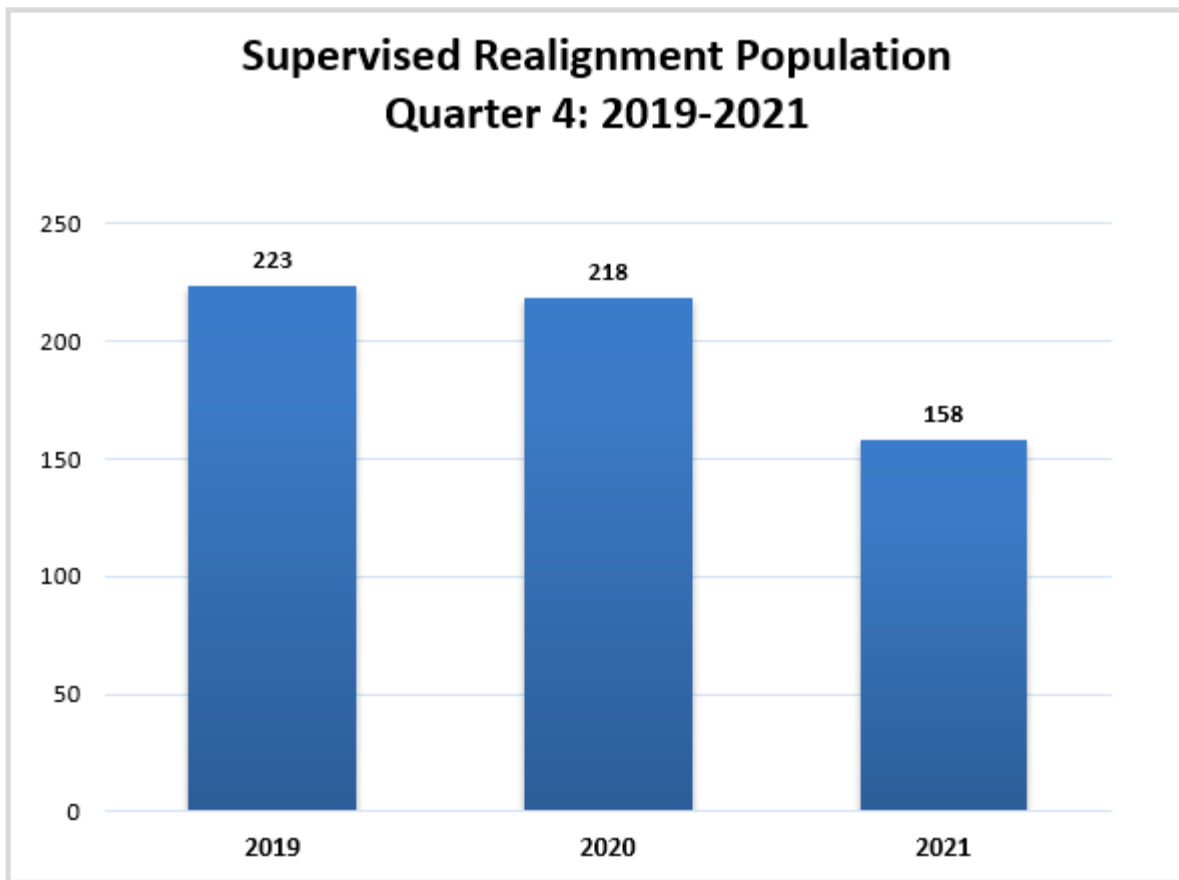

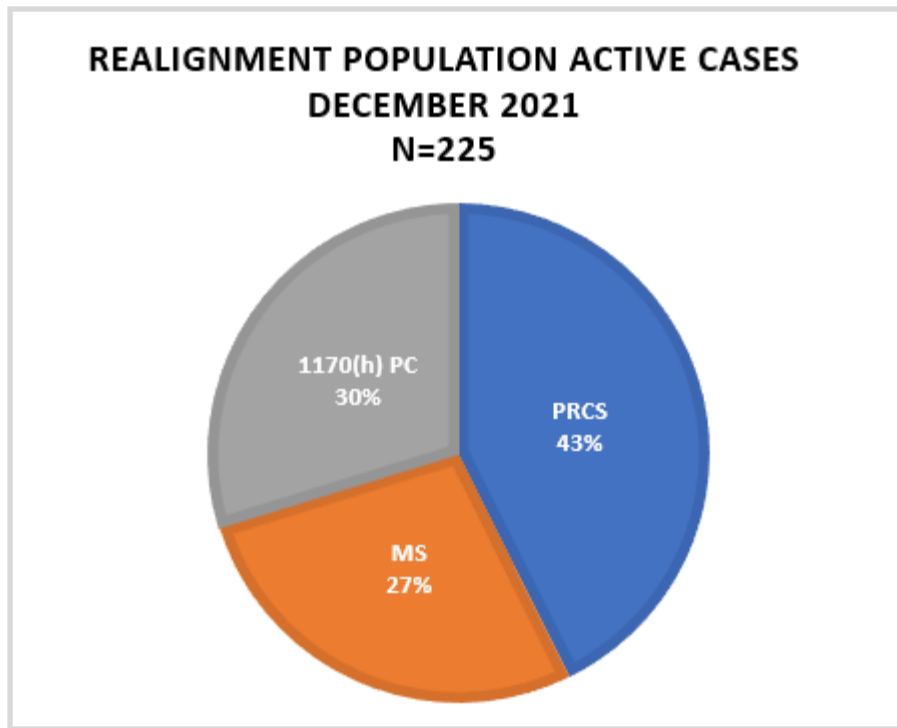

The data used for this analysis was derived from information provided by the San Mateo County Probation Department and data from the San Mateo County Jail.

Average Length of Stay	58	74	47

San Mateo County: *In Custody*

AB109 In-Custody on the Last Day of the Quarter:

On the last day of the quarter (December 31, 2021), the total AB109 in-custody population was 8.3% (67) of the overall average daily population (807), a decrease from the prior quarter 8.9% (68) with an ADP of 761.

During Q4 CY2021, drugs & alcohol, assault, and id theft comprised the top new charges committed by the in-custody population. As mentioned on Page 1, please note that the category “Other Property Crimes” refers to offenses such as elder theft, embezzlement, forgery, and larceny. “Miscellaneous” refers to a number of assorted offenses that do not amount to any one category. These offenses include but are not limited to: evading, false imprisonment, stalking, and arson.

FISCAL YEAR 2021-22 SECOND QUARTER
SUMMARY REPORT NARRATIVE

SAN MATEO COUNTY HEALTH
**BEHAVIORAL HEALTH
& RECOVERY SERVICES**

AT-A-GLANCE: All Time Total BHRS Referred, Served, Number of Services, or Booking Encounter

The total number of participants referred to BHRS for treatment since the inception of the Service Connect is 2,859 (increase of 45 over Q1) and of these, 1,657 (increase of 32 over Q1) entered treatment and/or recovery plans (these participants were served by BHRS and is a lower number because not all assessments result in treatment). Referred is defined as participants showing up for the first post-referral appointment and does not include those referred, but who did not follow through on the referral. This also represents the total number of services, 20,880 (both mental health and substance use treatment) provided to participants since the inception of the program (increase of 756).

Open Service Connect Cases with a Service

This graph represents total Service Connect participants that received at least one BHRS service. The numbers do include participants that continued from quarter to quarter, so a participant could be counted more than once in each quarter if their case was open across multiple fiscal quarters. The Q2 count is 69, however, this lower value is likely an artifact of the data being pulled for analysis so soon (i.e., February 3) after the quarter close. For example, at the time the Q1 report was generated the Q1 count was 62 but when pulled recently the Q1 count is now 95.

Engaged Participants with Four or More Services in a Year

“Engaged” is defined as a participant receiving four or more services, meaning the participant has returned to BHRS for multiple appointments for different services, demonstrating the participant is engaged because they actively participate. Engagement was 67% during Q2, which is the highest level of engagement over the most recent three quarters.

Percent of Participants with Substance Abuse Recovery Plan or a Mental Health Treatment Plan

This graph presents the percentage of participants who had a mental health treatment plan or a substance abuse recovery plan. Recovery plans are typically at a rate of two to one as compared to a mental health treatment plan. During Q2 there was a 7% higher percentage of mental health treatment than during Q1. Note that co-occurring participants are not represented.

Average Days in Treatment In and Post Custody

This graph shows the average days spent receiving treatment. In the last report we pointed out that the last two quarters of the previous year represented a significant decline, which continued in Q1 of the new year due to facility closures and reduced face-to-face services as a result of the pandemic. In Q2 the average days in treatment began to increase, most notably for mental health.

Mental Health and Alcohol & Other Drugs Services Provided by Service Connect

The chart reports mental health and substance abuse treatment provided by BHRS to Service Connect participants for Q2. Emergency and Inpatient Services were again notably low. Top five services utilized in order are AOD Residential, MH Services, AOD Outpatient, AOD Methadone, and AOD Intensive Outpatient.

Mobile Health Van Services

Participants are able to have their needs met, including Vivitrol injections and sick visits. At the time this report was created we had not received the Mobile Health Van data.

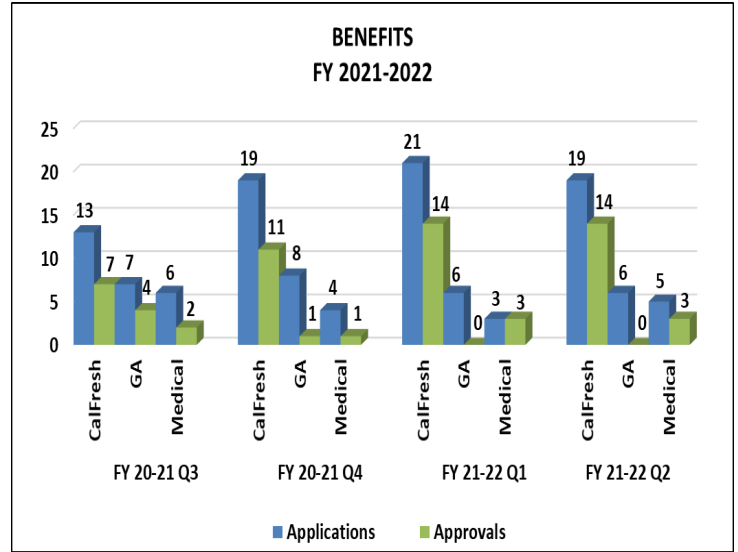

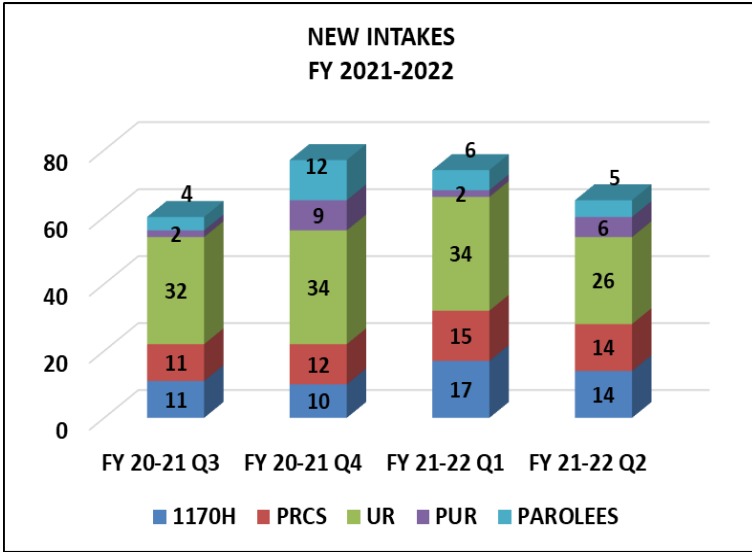

Correctional Health Services

Correctional Health data presents the total participants that flow through Correctional Health by quarter. The counts represent the participants who were screened, medically treated, and referred for mental illness and substance abuse treatment. FY21/22 Q2 referrals increased for mental health, Service Connect, and most notably, AOD Services, compared to the previous two quarters.

Service Connect Cases with PES Counts

A Psychiatric Emergency Services (PES) count is when a Service Connect participant has presented themselves at PES. Those participants that were not admitted are shown as a “visit” and those admitted are shown as “inpatient.” Involvement with PES is only counted if enrolled in Service Connect—counts do not include episodes when subject was not a participant in Service Connect. FY 21/22 Q2 counts (14 visits; 1 inpatient) remained lower than what is typical, which is approximately 25 visits and 5 inpatient.

Service Connect HSA Dashboard

FY 21-22, Q2 (October 2021 – December 2021)

Due to COVID-19 services are being delivered in a hybrid model (in person/virtual)

New Intakes

- There were 65 intakes in Q2, a decrease of 12% from Q1's 74.
- Intakes in Q2: 43% AB109, 40% UR, 9% Probation UR, 8% Parolees.
- There were 6 Probation UR served in Q2, total of 19 since its inception in March 2021.
- Under the virtual intake pilot program initiated in coordination with Sheriff's Office, 23 virtual intakes were completed in Q2 accounting for 35% of intakes.

Eligibility/Benefits

- There were 30 applications received and processed in Q2: 19 CalFresh, 6 General Assistance, 5 Medi-Cal.
- There were 17 approved applications in Q2: 14 CalFresh and 3 Medi-Cal.
- Denied applications totaled 18. Top 3 reasons for denial were failure to provide verifications, did not show-up to appointment, and active in another county. Three decided to withdraw their applications.

Employment Services

- In Q2, 35 clients obtained employment. Subsidized placements were 54% and unsubsidized employment 46%.
- Services and hotel & food were the top 2 businesses that employed clients in Q2.
- Average wage per hour for unsubsidized employment was \$18.62.
- There were 39 in-custody employment workshops conducted in Q2 with 18 graduates completing a five-workshop cycle to earn a Certificate of Completion.
- There were 9 virtual employment workshops conducted at Service Connect in Q2. Two completed the five-workshop cycle and earned Certificate of Completion.

Services Provided

- Transportation and communication were the most requested service in Q2. There were 122 bus tickets, 128 bus passes, 43 phones, and 52 phone cards issued. An average of 78 clients were served a month.
- Food assistance was the third most requested service. Issued in Q2: 368 meal vouchers, 156 Safeway cards, 37 food totes. An average of 67 clients were served a month.
- Other service was personal supportive items. Clients were provided with 97 clothing vouchers, 111 Target cards, 25 hygiene kits. An average of 62 clients were served a month.
- In Q2, there were 49 clients who utilized the motel voucher program and 4 clients provided with shelter bed placement.

Peer Support Services

- There were 23 clients who received peer support services in Q2. Services delivered were face-to-face meetings, 76%, and phone check-ins, 24%. A total of 11 support group meetings were conducted. There were 9 clients who participated.
- In Q2, there were 20 interactive journaling sessions held participated in by 23 clients. This is evidence-based model that provides cognitive behavioral therapy-based psychoeducation to participants.
