

Santa Cruz Avenue/ Alameda de las Pulgas Corridor Study

January 30, 2020 video simulation of the different traffic configurations in the link below:

<https://www.dropbox.com/s/10e0luzivp95086/Santa%20Cruz%20Community%20Meeting%20Video%2001302020.mp4?dl=0>

Please note that these files are large, so please be patient when loading them.

Total time of run 9:30 minutes.

This is a video of the following:

Existing (2018) volumes with No build – PM Model

Existing (2018) volumes with Alternative A – PM Model

Existing (2018) volumes with Alternative B – PM Model

At the Y intersection only.

Existing (2018) volumes with - No Turn on Red - No build – PM Model

Existing (2018) volumes with - No Turn on Red - Alternative A – PM Model

Existing (2018) volumes with - No Turn on Red - Alternative B – PM Model

These are just computerized simulations using 2018 traffic volumes at peak PM travel times.
